# 12th Annual Hudson-Mohawk Unitarian Universalist Cluster Weekend

In addition to the Cluster Worship Service on Sunday, April 5, all are invited to:

## *Building a Community of Communities*

A Workshop with Paula Cole Jones on

**Saturday, April 4**

1:00 - 4:30pm at

**Albany Unitarian Universalist**

405 Washington Ave., Albany

Come experience what being part of a community of communities feels like. The Hudson-Mohawk Cluster gives us a chance to expand our sense of community by engaging with people from neighboring congregations. What can we do together to strengthen the UU experience? Would you like to meet people who are involved in worship arts, religious education, adult spiritual development, racial and social justice, and more?

Paula Cole Jones, UUA Regional Staff Member, will guide us in looking at a new, collaborative way to engage with each other in discussion and decision-making. When we focus on the well-being of Communities, we can develop a more inclusive culture for all. What might it look like for our UU Principles to be in action, while integrating the 8th Principle of building Beloved Community? Are there more inclusive and healthier ways to engage in democratic process? On Saturday, April 4th, we will explore these questions together.

**Please RSVP by Monday, March 30**, if you are attending the Saturday workshop, by contacting Tammy Hathaway at Albany UU at 518-463-7135 or [admin@albanyuu.org](mailto:admin@albanyuu.org)

Child care will happily be provided but **only if you RSVP** to tell us you need it. Please include your child's name and age when you RSVP.
