

Green Sanctuary Presents:

An opportunity to hear about ways to “keep fossil fuels in the ground”

A series of potlucks and presentations at the First Unitarian Universalist Society of Albany, 405 Washington Ave., Albany

6:00 to 9:00 PM (Presentations to begin about 7:30)

Community net metering - February 19, 2016

Solarize Albany representatives presents: Saving money on your electricity by getting your solar energy from an off-site solar farm when you cannot qualify for installation or you don't want solar to be installed on your building.

Energy audits: The process and (money-saving) benefits (to you) - March 11, 2016

A representative from the Affordable Housing Program will tell us about the GREAT savings we can get with a free energy audit through New York State Energy Research and Development Authority. YOU might even qualify for FREE follow-up which will mean big bucks remaining in your pocket for other things. Further weatherizing your home could save you oodles of money.

Alternatives to heating with fossil fuels - April 8, 2016

Renewable energy expert will tell us about how we could get our heat with greatly reduced use of gas, oil or coal.
