

The **Religious Services Committee** works with Rev. Trumbore on designing Sunday morning worship. We are responsible for organizing services about once a month when he is not in the pulpit. This may involve groups within our congregation who wish to present a service, or we invite guests. We explore new opportunities for special services. We also recruit, train, and schedule service leaders. These people read the announcements, do the Call to Celebration and conduct other elements of the service. By working together with Rev. Trumbore, we assure regular congregational input into Sunday morning worship.
