Keep in mind that when Social Security was enacted, farm workers and domestic employees, occupations that encompassed significant numbers of black folk, were excluded, at the insistence of Southern members of Congress. Also, the GI Bill of Rights, which helped so many veterans obtain homes after World War II, effectively excluded veterans of color through red-lining, nor did the educational opportunities the bill provided white veäed any vans of

[what is history?]

All of this opens up the question of "What is History?" Is history that which is contained in the pages of a history text book? Decisions about resources available at the time of printing, and the perspective [biases] of the writers, always play a major role in what is included in the text ÒFW€
