

Circle of Trees

Multigenerational Learning Event on Our Seventh Principle
Presented by Leah Purcell

Circle of Trees is a multigenerational program that uses trees as an entry point to understand and connect with life on earth. Across many cultures, trees are recognized as a symbol for life on earth—for example, the biblical Tree of Life. Everyone is welcome—indeed, needed. The program serves children as young as eight or nine and youth and adults of all ages. Young children can sit on adults' laps or play quietly nearby.

We could plan to have a pot luck, brown bag or order out dinner. Each workshop is 60 minutes long.

Meeting dates (all Saturdays at 4:30 PM): 3.21, 4.4, 4.11, 4.25

Minimum enrollment of 8 people/families needed to run this class.

Sign up on the bulletin board in Channing, email registration@albanyuu.org, or call the office.
